

**WE REPAIR OR REPLACE IT ALL.
BIG AND SMALL. FAST.
SAFELY. AND TO EXACTING
STANDARDS.**

Serving the needs of the industrial northeast since 1862, Troy Industrial Solutions provides a full range of electro-mechanical equipment diagnostics, repair, replacement, transportation, installation and training services.

REPAIR SERVICES

- Motors
- Drives & Control
- Power Transmission
- Conveyor
- Material Handling
- Hydraulics
- Power Generation

24/7 SERVICE FLEET

Onsite assistance, pickup and delivery.

PREDICTIVE MAINTENANCE

FABRICATION

Bulk material handling conveyors, drives and custom.

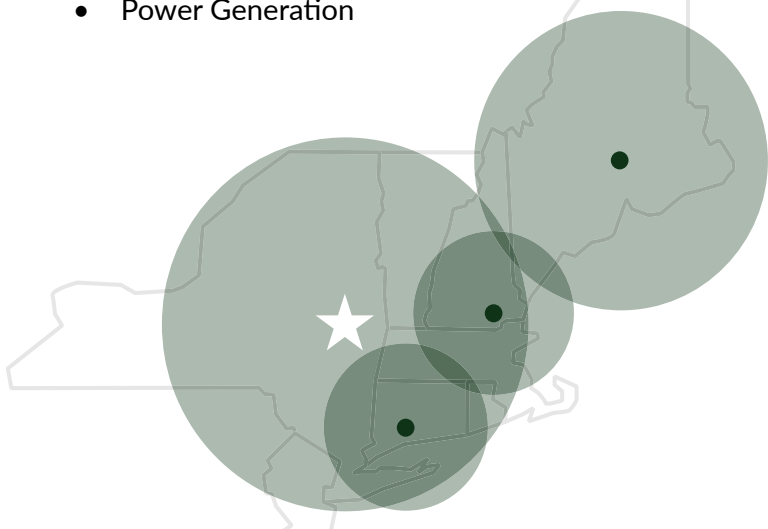

FULLY STOCKED PARTS WAREHOUSE

Northeast's largest inventory.

EXPERIENCED, SKILLED & CERTIFIED STAFF

CUSTOM TRAINING

Best practices for engineers and facility managers.

SAFETY CERTIFICATIONS

- MSHA** - Mine Safety and Health Administration
- OSHA** - Occupational Safety and Health Administration

METAL FABRICATION

And Bulk Material Handling Maintenance and Support

With a focus on uptime, efficiency and safety, Troy Industrial Solutions is your one-source partner for comprehensive industrial maintenance services. We have the staff, parts, experience and facilities, including comprehensive **metal fabrication and machining, to support any maintenance strategy.**

For customers in mining, aggregates, paper and pulp and other bulk material handing applications, our **fabrication services** provide custom design and expert repair of all key components and systems. Our fabrication facility and machine shop are outfitted with equipment to support almost any project. We can build on existing drawings or work closely with customers to create custom-designed solutions. Our equipment can handle a wide variety of metal thicknesses and types.

PRODUCTS

- Screws
- Conveyors
- Drives
- Hoppers
- Ducts
- Chutes
- Tanks
- Dryers and Polishers
- Stacks
- Custom Components

SERVICES

- Custom design and development
- Project management
- Emergency service and field repair
- Design support
- Comprehensive industrial equipment service
- Preventative and predictive maintenance

EQUIPMENT

Fabrication

- Six 2-ton overhead cranes
- CNC plasma/oxy burn table 10' x 20'
- CNC plasma/oxy burn table 5' x 10'
- Automatic vertical mitring saw 18" x 22"
- 60-ton and 70-ton Ironworker
- 300 ton press brake
- Metal shear 12' x 1/2"
- Metal forming rolls 10' x 14" roll diameter
- Screw flight bending machine

Machining

- Two 10 ton overhead cranes
- Lathes up to 33' center x 42" diameter
- Vertical tuning center 63" diameter x 50" high
- Horizontal boring 36" depth
- Milling 14" x 50"
- Surface grinding
- Broaching
